- The dispensary investigating committee developed some remarkably in teresting information last Saturday about the famous label deal of Messrs. Boykin and Towill. It will be remem-bered that during last spring it developed that Messrs. Boykin and Towill had gone to Cincinnati and purchased 21,000,000 labels for \$36,677. Of course The Celebrated English Palmist everybody knew that that was too many labels—more than the state would likely use for several years; and everybody felt that there was something wrong about the whole mat-ter; but nobody had the facts. The dispensary committee got on the trail of the matter quite warmly some time back, and among the witnesses put up last Friday were Messrs. A. E. Gon-zales of the Columbia State, and Mr. W. H. Coggswell, of the Walker, Evans & Coggswell company. The commit-tee had given each of these gentlemen samples of the labels bought in Cin-cinnati and asked them to submit bids on which they would be able to give bond and duplicate the Cincinnational. It developed that neither printing establishment was prepared to furnish labels of the quality desired, or in the desired quantity; but each got into communication with large concerns that make a specialty of labels. Mr. Coggswell with the Brandon Printing company of Nashville, and Mr. Gonzales with the American Color Mr. Gonzales with the American Color Printing company of Baltimore. Mr. Coggswell offered to furnish the labels for \$9.185, and Mr. Gonzales offered to furnish them for \$7.700. Mr. Coggswell said he had added \$2.000 to the price of the Nashville people for his own profit and Mr. Gonzales said he was to get 10 per cent off the quotation made by the Maryland company. Both mer testified that so far as they were concerned the entire transaction was in good faith; that neither had been advised that the whole thing was was in good faith; that neither had been advised that the whole thing was merely a matter of getting information and that the houses with which they corresponded were both very anxious to get the order. The Nashville concern sent a man to Charleston to see Mr. Coggswell, and to help him with such political influence as might be necessary to land the job. The Baltimore concern did practically the same thing in the case of Mr. Gonzales. But the evidence of Mr. Siebels of the glass works. Mr. Boykin had asked him to submit bids before the purchase was made. Mr. Siebels made bids ranging from 50 cents per thousand for thing in the case of Mr. Gonzales. But was made. Mr. Slebels made blus ranging from 50 cents per thousand for plain labels to \$1 per thousand for embossed labels. For these same la-bels Boykin and Towill afterward concern) was \$25,000. It developed that the Cincinnati order was approved

Last Year's Business of the Mutual Benefit---

Was the largest in its history. The was the largest in its history. The long record of fair dealing with its policy holders is a valuable argument for new and increasing business, and overcomes the disadvantage, so to speak; of the smaller commissions paid its agents. The company last year reaped the reward of its past thrift and fair practices. It was a year rife with criticism, and therefore a propitious year for the Mutual Benefit. Its sixty-first Annual Statement, compared with its sixtieth, shows but one decrease; this, as in the previous year, was in the expense rate, which is a powerful lever with which to move a discriminating public. During 1905 the receipts from policy holders were \$14,834,018.21, and they (the policy hold-ers) received back or had credited to them \$16.253.005.19. It received \$4, 410,247.21 from Interest and rents and all this sum was used exclusively for

the benefit of the policy holders. SAM M. GRIST, Special Agent.
